

**AP Chemistry  
Syllabus  
Week of October 7, 2024**

Well you are a little bit older, and a lot less bolder than you use to be.  
You used to shake it down, but now you stop and think about your dignity.  
Sweet sixteen has turned into thirty one, you get to feeling weary when the work day is  
done, all you have to do is kick back and give it a rest.  
You can sit back baby, but rock and roll never forgets.
