Announcements:

You have two lab reports due this Tuesday. Get them done early. I have posted some practice in AP Classroom and have put up last year's test on kinetics so work hard and get a nice high score on this next test.

We are going into several chapters in a row that all deal with math and the concept of equilibrium. The best way to prepare for all of this is to work tons of problems.

There is no lab this week. Our next lab is at the end of chapter 14.
