

**AP Chemistry
Syllabus
Week of May 5, 2025**

Nostalgia

People have this obsession. They want you to be like you were in 1969. They want you to, because otherwise their youth goes with you. . . . It's very selfish, but it's understandable.

Mick Jagger (b. 1942), British rock musician. Quoted in: Observer (London, 10 Jan. 1993).

Schedule:

| <i>Day</i> | <i>Date</i> | <i>Topic</i> | <i>Reading</i> |
|------------|-------------|-------------------------|----------------|
| Monday | 5/5 | Review | |
| Tuesday | 5/6 | AP Day | |
| Wednesday | 5/7 | QA of White Powders Lab | |
| Thursday | 5/8 | QA of White Powders Lab | |
| Friday | 5/9 | QA of White Powders Lab | |

Problem Sets:

No problem sets this week.

Announcements:

You need to complete the third mock AP this weekend.

You will work on the white powders lab as a group of four. You have three days. Everyone in the group should confirm each of the eleven powders individually and discuss. You all need to learn this technique. You will be scored by how many you get correct. You get ten points a piece for each correct substance out of 100 so you could get ten points of extra credit for a perfect lab.

No bunsen burners are allowed at lab stations!! Only hot plates at lab stations and keep the alcohol away from them.

When it comes time to turn it in all four of you will staple the last page of the handout together and put all four names on the top sheet which should only have your final

Next Week:**Schedule:**
